

Jigsaw PSHE is a progressive scheme of learning where knowledge and skills build year on year across the programme. The table below shows how the Relationships Puzzle (unit of work) develops in this year group, including some of the key vocabulary. Schools may adapt content to fit their policy, so please check with your child's school for specific details.

Ages 10-11	Puzzle overview: Relationships	
	In this Puzzle, children explore mental health, learning how to recognise stress, anxiety and early warning signs, and how to seek support for themselves and others. They examine love and loss, understanding grief and developing strategies for managing strong emotions. Across the six lessons, children learn about power and control in relationships, practise assertive responses, and explore how to stay safe online, including judging what is real or fake and resisting pressure.	
	Knowledge	Social and emotional skills
	• I know that it is important to take care of my mental health • I know how to take care of my mental health • I understand there are different stages of grief and that there are different types of loss that cause people to grieve • I can recognise when people are trying to gain power or control • I can judge whether something online is safe and helpful to me • I can use technology positively and safely to communicate with my friends and family	• I can understand that people can get problems with their mental health and that it is nothing to be ashamed of • I can help myself and others when worried about a mental health problem • I can recognise when I am feeling those emotions and have strategies to manage them • I can demonstrate ways I could stand up for myself and my friends in situations where others are trying to gain power or control • I can resist pressure to do something online that might hurt myself or others • I can take responsibility for my own safety and well-being
